

"WHERE YOUR CHILD ALWAYS COMES FIRST!"

Parents, we hope that the first couple of monthly newsletters have been very informative. These will continue to be filled with exciting news of what is going on around our school as well as in each classroom. A few important points of information for everyone are:

1. Sunscreen- please put sunscreen on your child before they arrive at school. We, at the school are not authorized to put any type of skin protectant on your child.
2. **Flip Flop sandals are not allowed in school.** The children go outside daily and while running, can fall and get injured with that type of footwear.
3. Please ensure that your child has the proper change of clothing in their cubbies that are weather appropriate.

### Past/Current Events

There will be plenty of moving around as the children are continuing to transition from one class to another. If you have any questions regarding classroom changing please speak to your child's teacher or Mr. Angelo in the office.

### Important News

Parents, please make sure you register your child in and out of school each day. The system needs in and out daily registration to ensure that you will not have any issues whenever your child registered again. If you would like to add a pick up person to your list you can do so in very little time. If you have any questions or comments please feel free to see Mr. Angelo.

Also please ensure that your child's file is up to date with current phone numbers and email addresses.

### Chipmunks Class

Dear Parents, last month we had lots of fun doing several projects and fun activities about the Beach, Camping, the Ocean, and Frogs. We are still enjoying the summer and this is the time we see lots of changes in the classroom. We are getting some new Chipmunks in our class soon. So we will spend the month of August learning about each-other. Our months theme will be me myself & I, My family, Body Parts, and The Five Senses. We will learn some letters and also some numbers. Our months shape is 'Rectangle and Oval'.

Please check your child's cubby that he/she has extra clothes and please make sure your child does not wear flip-flops at school. Thank you!!

### Sharks Classroom

August is here and 4yr olds are moving in and 5yr olds are moving out. Over the last couple of weeks we have been focusing on writing and spelling our names, days of the week & months of the year. We have also been focusing on following directions. I want to say thank you for all the help and support in making sure the homework is returned in a timely manner.

Next month we should be finishing up with all transitions and be more settled in with the new students. We will be getting prepared to welcome in the new school year. We are also congratulating our 5yr olds on their graduation and wishing them the best of luck in their future.

### Bumblebees Classroom

We have many new faces in the Bumblebee class; many of the new students are not familiar with the basics; which include their letters numbers and shapes. This month, we will try to enlighten them in those areas. Some of our lesson plans (naming a few) will include, Shapes & Numbers, Who Knows Their alphabets, and Colors. Our activities consist of Yoga, jolly jump ups, obstacles courses and many more exciting motions. Since summer is almost over, we will talk about what I like most about summer. Parents, I encourage you to look at the lesson plans each week so you can have an idea of how the days are spent at Toddler Town; also please endure their education at home as well and connected it to what was being taught at school. The bumblebee class is Ready Willing & Able!!

### Butterfly Classroom

Happy August Parents & Guardians! The Butterflies will be absolutely thrilled with what we have in store for them this month. As we gradually say good-bye to summer and hello to a new and peaking fall season, there is much to be done. In the previous month, the butterflies discovered great themes such as life underwater with sea animals, insects and so much more. Now we will open up our eyes, ears, and hearts to focus in on topics like family, weather, and safety. Our classroom is also very excited about our new homework plans that have begun at the end of July. We would like to encourage parents to spend more time and become more involved in assisting their children at home with their letters, numbers, shapes, colors, reasoning, etc. Remember, practice makes perfect!

To obtain a homework packet, see Ms. Alex or Ms. Lara.
